Escanaba Yacht Club Transient Boater Policy

Thank you for making the voyage to Escanaba and welcome to our beautiful harbor. Please consider this an invitation to all visiting boaters to make use of the our facilities during your stay. In return we ask that you be courteous, treat the clubhouse with respect and please try to leave it better than you found it.

If there are members at the clubhouse please come and introduce yourself. If the clubhouse is locked, see the harbormaster for the door combination.

You are welcome to use the clubhouse, porch, grills, prepare dinner in the kitchen for your crew, and take shelter indoors from inclement weather. Please know that your use of the clubhouse is at your own risk. Children must be accompanied by an adult.

Please provide your own plates, utensils and napkins . Disposable items located in the clubhouse are for Club events only.

Personal food and beverages should not be stored in the refrigerator.

Clean and cover outdoor grills after use. The gas valve is located inside the clubhouse's southwest corner opposite the grills. Make sure to turn the valve off when done.

Garbage must be removed and placed in outside trash containers.

Boaters take warning. The clubhouse is rented occasionally and during those times is for the exclusive use of that rental party. Please respect their privacy and refrain from using the clubhouse while it is rented. Rental dates are posted on the EYC calendar on our website escanabayachtclub.com.

Again, welcome to the EYC. We hope you enjoy your stay.
